

Katherine Anderson, MD, FRCSC

Clinical Assistant Professor

Program Director – Female and
Functional Urology

B.Sc. - Acadia University 2012

MD - Dalhousie University 2016

Fellowship – Female and Functional
Urology, Bristol, UK 2023

Dr. Kate Anderson is a urologist specializing in continence surgery, urodynamics, neuro-urology, and pelvic reconstructive surgery. She hails from the East coast of Canada where she did her Urology residency at Dalhousie University in Halifax before completing a 2-year Functional Urology fellowship at the Bristol Urological Institute in the United Kingdom. She is excited to bring her expertise back to BC to focus on advancing the fields of functional urology, reconstruction, and neuro-urology.

Dr. Anderson joined the Department of Urologic Sciences October 2023 and is the Program Director of the Female and Functional Urology Program.
